

Overview: Increasing Aucklanders' Participation in Sport Investment Plan 2019 – 2039

Working together, Tennis Auckland and Tennis Northern pay ongoing attention to environmental issues that may influence our sport or impact the way our tennis clubs sit within the wider Auckland context.

With regard Auckland Council this has included our attending sector meetings, making submissions and interpreting policy as it emerges.

A recent and significant policy output is **“Increasing Aucklanders’ Participation in Sport Investment Plan 2019 – 2039” (July 2019)**.

Understanding the way Auckland Council is thinking about its investment decisions with regard sport is crucial to any tennis club or sporting entity applying to Council – thus we have paid close attention to this document.

Whilst the document itself is well presented and readable, it is substantial.

Tennis Auckland and Tennis Northern have produced an overview document which captures the key points within The Plan.

We invite you to read this. For those who might wish to take a deeper dive into the document itself, a link is provided.

Kind Regards

Participation & Facilities Group (PFG)
